WOMEN RISING

Programs to inspire, transform, and
motivate women to take their rightfully
earned seat at the table.

Hey! I'm Jen Buck.

I began the first decade of my career in a startup helping to launch a billion-dollar global and award-winning brand while in a leadership development training role. Having now been an award-winning professional Keynote Speaker for 25 years, I've given over 10,000 programs impacting over a million people throughout my tenure. As a best-selling author with seven publications, hosting a television show that was seen in 50 countries worldwide, as well as having a podcast that highlights female leaders, I'm committed to amplifying great leadership. I'm also the Chief Operating Officer for a female-founded and female-led organization and have led three U.S. Congressional campaigns as the Chief of Staff, as well as started a nonprofit that contributed to helping 48,000 people in need.

My keynotes are high-energy and fast-moving, with a focus on helping female leaders thrive in ever-evolving and high-intensity environments. I also serve organizations to help develop their high-performing women through training, performance and strategic coaching which will support them in navigating proximity to power by understanding the power of Strategic Positioning. My goal is to help women build brands that get them noticed and promoted into positions of power. With an inspiring and practical message, I know how to get audiences on their feet and excited about creating big change.

Becoming A Woman of Impact

The future is female. And so is much of our past. When we look at social change and the myriad contributions women have made, both to historical events and to the society that shapes our modern world, it's a woman's social and emotional compass that is often guiding us. There has truly never been a better time for women to take the lead in creating massive social impact than right this very moment. We are watching more women open organizations, more women lead companies, and more countries with women at the helm-- these are exciting times as we watch women take center stage and stand in their truth. This inspiring and soul-stirring keynote will inspire women to take the lead, step into their power, and create a movement that will have an impact on the world around them.

As the Chief Communications Officer for a female-founded and led nonprofit organization, along with being the founder of a nonprofit herself, Jen Buck is committed to being a woman of impact. Whether it's working in the humanitarian aid sector, leading U.S. Congressional campaigns as the Chief of Staff for marginalized candidates, or starting community action projects, Jen is committed to utilizing every resource she can to make a difference so that everyone is treated equitably. The goal is to leave the world better than we found it-- and that's why this keynote matters so much.

Amplifying Your Executive Presence: Building Impact and Influence

Research has shown that companies with women in leadership positions see higher profits and greater employee satisfaction. With such a strong business case to be made for it, senior leaders around the world are striving to get more women into leadership positions within their companies. Right this moment, the world is looking for women to lead and it's our job to strategically position ourselves to stand out.
